[SPECIAL CORRESPONDENCE.]

HARRISBURG, Pa., Aug. 1.—[Special.]—The Democratic Convention called to-day by Senator Connell, of Wayne County, for the purpose of nominating candidates for Auditor-General and State Treasurer, assembled in this city at 12 o'clock M. The convention was called to order by Hon. Joseph Powell, of Bradford County, for State Treasurer, Gen. Packer's nomination for Governor having already been made. Upon the call of the roll a very respectable, but not numerous, delegation responded to their names. The counties were represented by the following delegates:

[Here follows a list of delegates.]

Hon. Joseph Powell, of Bradford County, was chosen temporary Chairman, and Hon. Thomas Connell, of Wayne County, was chosen Secretary. Mr. Powell, on taking the chair, said that he was sensible that he was not worthy of the honor conferred upon him, but he would endeavor to discharge the duties of the position to the best of his ability. He then read the call for the convention, which was issued by the Democratic State Committee, and which declared that the Democracy of Pennsylvania, in convention assembled, would, in a platform to be then adopted, declare their principles and their position upon the issues of the day, and would nominate candidates for Auditor-General and State Treasurer, who would be found to be true representatives of the principles of the party, and who would receive the support of the Democracy of the State.

Mr. Powell then proceeded to say that the Democracy of Pennsylvania had always been in favor of the most liberal policy toward the soldiers and sailors of the country, and that they would be found in favor of the most liberal policy toward them in the future. He then referred to the fact that the Democracy of Pennsylvania had always been in favor of the most economical administration of the affairs of the State Government, and that they would be found in favor of the most economical administration in the future. He then referred to the fact

CHOLERA.

Special Cable to The Chicago Tribune.
Berlin, Aug. 5.—The case of Professor Koch, who has gone to Toulon to study the cholera epidemic, is the subject of much comment in the German press. The Government has refused to grant the request of the Professor to be allowed to proceed to Toulon. The Cholera Commission explains that the occupation of the cabinet would not be in such a hurry for one of his talents as the necessity of the citizens exposed from starvation. The refusal to give the name of the citizen or the city which is causing the protest is looked on as an act of astounding gaucherie.

How High License Works in Missouri.

All the Democratic Counties for a High Tax on Saloons.

Failure of Prohibition to Command Tariff for Kansas City.

Senator George Vest, of Missouri, was interviewed on the Grand Pacific Hotel on the temperance and other questions in Missouri, and among other things said, in response to a question as to how the recent Democratic law for high license for saloons was working in that State:

"It is working first rate. There is a general satisfaction in the community at the result. The principal opposition to the high license law came from the saloon keepers themselves, who, of course, would prefer a low license or no license at all. The opposition to the law was very strong in many localities, but the people have stood by it, and the result is that the number of saloons has been greatly reduced. In the city of St. Louis, for instance, the number of saloons has been reduced from 3,000 to 1,200, and the quality of the saloons has been greatly improved. The poor, miserable, dirty, filthy saloons have been closed up, and the better class of saloons have been left. The result is that the revenue from the saloons has been increased, and the city is getting more money than ever before. The law is working well in the rural districts, and the people are satisfied with it. The Democratic party in Missouri is pledged to the support of the law, and will stand by it. There is no danger of the law being repealed. The Democratic party is pledged to it, and will stand by it. The law is working well, and the people are satisfied with it
